

Safety data sheet

Version number 1

Printing date 28.01.2015

according to 1907/2006/EC, Article 31

SECTION 1: Identification of the substance/mixture and of the company/undertaking - 1.1 Product identifier RTV SILICONE BLACK - Trade name: ergo 3010 WC3010.200.DD - 1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available. - Application of the substance / the mixture Adhesives - 1.3 Details of the supplier of the safety data sheet - Manufacturer/Supplier: Distributor Wolfchester Australia Autoserv New Zealand Ltd 4/122 Beresford Road 2/38 Trugood Drive Lilydale, Victoria 3140 East Tamaki, Auckland Phone: +61 3 9737 2800 Phone: +64 9 272 1940 - Further information obtainable from: Safety Department Emergency 0800 2436 2255/0800 764 766 - Department issuing MSDS: sales@wolfchester.com.au warehouse@autoserv.co.nz **SECTION 2: Hazards identification** - 2.1 Classification of the substance or mixture - Classification according to Regulation (EC) No 1272/2008 Carc. 2 H351 Suspected of causing cancer. Eye Dam. 1 H318 Causes serious eye damage. Skin Sens. 1 H317 May cause an allergic skin reaction. H229 Pressurised container: May burst if heated. - Classification according to Directive 67/548/EEC or Directive 1999/45/EC Xn; Harmful R40: Limited evidence of a carcinogenic effect. Xi; Irritant R36: Irritating to eyes. Xi; Sensitising R43: May cause sensitisation by skin contact. - Information concerning particular hazards for human and environment: The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version. Warning! Pressurised container. 2-butanone-oxime is produced during cure. - Classification system: The classification is according to the latest editions of the EU-lists, and extended by company and literature data. -2.2 Label elements - Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the CLP regulation. - Hazard pictograms GHS07 GHS05 GHS08 (Contd. on page 2) - CHGEN

| Cool endangered receptacles with | |
| Dispose of fire debris and contami | inated fire fighting water in accordance with official regulations. |
| | |
| SECTION 6: Accidental re | elease measures |
| | tive equipment and emergency procedures |
| Wear protective equipment. Keep | unprotected persons away. |
| Ensure adequate ventilation | |
| Keep away from ignition sources. - 6.2 Environmental precautions: | |
| Do not allow product to reach sew | age system or any water course. |
| | ise of seepage into water course or sewage system. |
| - 6.3 Methods and material for co | |
| Ensure adequate ventilation. | |
| Absorb liquid components with lic Dispose of the material collected a | |
| - 6.4 Reference to other sections | locording to regulations. |
| | |

Fumes can combine with air to form an explosive mixture.

(Contd. on page 4)

Printing date 28.01.2015

Version number 1

Revision: 28.01.2020

Trade name: ergo 3010

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 10 for information on "stability and reactivity".

See Section 13 for disposal information.

SECTION 7: Handling and storage

- 7.1 Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace.

Ensure good interior ventilation, especially at floor level. (Fumes are heavier than air).

- Information about fire - and explosion protection:

Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50 °C, i.e. electric lights. Do not pierce or burn, even after use.

-7.2 Conditions for safe storage, including any incompatibilities

- Storage:

- Requirements to be met by storerooms and receptacles:

Observe official regulations on storing packagings with pressurised containers.

- Information about storage in one common storage facility: Store away from foodstuffs.
- Further information about storage conditions:

Protect from heat and direct sunlight.

Store under lock and key and with access restricted to technical experts or their assistants only. Store in a cool place. Heat will increase pressure and may lead to the receptacle bursting.

- Maximum storage temperature: 30 °C
- Minimum storage temperature: 5 °C
- 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

- Additional information about design of technical facilities: No further data; see item 7.

- 8.1 Control parameters

Butyl, Nr. 0898

of KCL company (e-mail: vertrieb@kcl.de).

The recommendation is based exclusively on the chemical compatibility and the test according to EN374 under laboratory conditions.

Requirements can vary according to the use. Therefore, please always take into account the glove supplier's recommendations.

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

- Penetration time of glove material

Permeation time / penetration time: see above (material of gloves)

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

- Eye protection: Safety glasses

SECTION 9: Physical and chemical properties

| - General Information - Appearance: Form: | |
|---|--|
| | |
| 1 01 111 | Pasty |
| Colour: | Black |
| - Odour: | Characteristic |
| Odour threshold: | Not determined. |
| - pH-value: | Not determined. |
| - Change in condition | |
| Melting point/Melting range: | Not applicable, as aerosol. |
| Boiling point/Boiling range: | Not applicable, as aerosol. |
| - Flash point: | Not applicable, as aerosol. |
| - Flammability (solid, gaseous): | Not applicable. |
| - Ignition temperature: | |
| Decomposition temperature: | Not determined. |
| - Self-igniting: | Product is not self-igniting. |
| Danger of explosion: | Pressurized container: protect from sunlight and do not expose t temperatures exceeding 50 °C. Do not pierce or burn, even afte use. Buildup of explosive mixtures possible without sufficien ventilation. |
| - Explosion limits: | |
| Lower: | Not determined. |
| Upper: | Not determined. |
| - Vapour pressure: | Not determined. |
| - Density at 20 °C: | 1,28 g/cm ³ |
| - Relative density | Not determined. |
| -Vapour density | Not determined. |
| - Evaporation rate | Not applicable. |

SECTION 10: Stability and reactivity

-10.1 Reactivity

- 10.2 Chemical stability

- Thermal decomposition / conditions to be avoided: Protect from heat and direct sunlight.

No decomposition if used and stored according to specifications.

- 10.3 Possibility of hazardous reactions Danger of bursting.
- Toxic fumes may be released if heated above the decomposition point.
- 10.4 Conditions to avoid No further relevant information available.
- 10.5 Incompatible materials: No further relevant information available.

- 10.6 Hazardous decomposition products:

No dangerous products of decomposition if used and stored according to specifications.

SECTION 11: Toxicological information

-11.1 Information on toxicological effects

- Acute toxicity:

| | v | | | |
|------------|---|-------------------------|--|--|
| - LD/LC50 | - LD/LC50 values relevant for classification: | | | |
| 96-29-7 2- | 96-29-7 2-butanone oxime | | | |
| Oral | LD50 | 930 mg/kg (rat) | | |
| Dermal | LD50 | >1000 mg/kg (rab) | | |
| Inhalative | LC50/4 h | > 4,83 mg/l (rat) | | |
| 106-97-8 | 106-97-8 butane | | | |
| Inhalative | LC50/4 h | 658 mg/l (rat) | | |
| 919-30-2 3 | 919-30-2 3-aminopropyltriethoxysilane | | | |
| Oral | LD50 | 1490 - 2690 mg/kg (rat) | | |
| Dermal | LD50 | 4076 mg/kg (rab) (EPA) | | |

- Primary irritant effect:

- on the skin: Repeated exposure may cause skin dryness or cracking.

- on the eye: Causes serious eye damage.

- Sensitisation: Sensitisation possible through skin contact.

- Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

Harmful

Irritant

No experimentally found toxicological data are available for this preparation.

- CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)

Limited evidence of a carcinogenic effect.

SECTION 15: Regulatory information

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

- National regulations:
- Waterhazard class:

Water hazard class 2 (Self-assessment): hazardous for water.

Water hazard class (German Regulation) is valid for the active agent.

- 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

- Relevant phrases

- H220 Extremely flammable gas.
- H280 Contains gas under pressure; may explode if heated.
- H302 Harmful if swallowed.
- H312 Harmful in contact with skin.
- H314 Causes severe skin burns and eye damage.
- H315 Causes skin irritation.
